DentiMax Communicator

Patient Communications

TRUE Text™	Practice gets a real local number and patients can text back and forth like any cell phone
Online Scheduler	Real appointments are scheduled online 24/7. Appointments are written back directly to DentiMax
Customizable Email Templates	Useful for different types of providers, such as general dentistry, pediatric, hygiene, etc.
Check-In App	New patients fill out their information in the waiting room, on their smartphone or tablet. Results are posted directly in DentiMax
Patient Reactivation	Practices can reactivate dormant patients who have not been to the practice for 12 months or more
Confirmations: SMS, Email & Voice	Multiple confirmation messages can be scheduled, but will not be sent out once the patient has confirmed
Customizable Confirmations & Reminders	Sent out based on specific providers/procedures
1-Click Confirmations	Send one-off messages to patients who have not replied to the automated messages
Automated Patient Care	Contact patients based on specific procedure type for pre-op/post-op instructions, new patient thank yous, etc.
Automated Recall System	Daily
Pre/Post-Op Instructions	✓
